EDUCATION PROGRAMS

# CLASSROOM PROGRAMS

Aquarium of the Bay Provides **NGSS-Aligned** Environmental Science Education Programs

## Between the Tides

Kindergarten

## Salmon!

1st-3rd grade

## Sensational Sea Lions

3rd-5th grade

## Kraken Lab

6th-8th grade

## 3D Print Lab

9th-12th grade

## Self-Guided Aquarium Tour

Kindergarten-12th grade

## VIP Tour

Kindergarten-12th grade

Discover the amazing animals that thrive in the ever-changing habitat, where the waves meet the rocky shore.

Follow the incredible journey of a salmon's life cycle from egg to adulthood and discover their importance in the ecosystem.

Visit PIER 39's famous sea lions and learn about what makes the animals so incredible and adaptable.

Look into the ins and outs of squid and their importance to our Aquarium and their ecosystem.

This program offers the chance for students to learn the basics of 3D printing while helping our visually impaired community.

If you have a limited time to visit, Self-guided tours are flexible and give your group a look at life in the San Francisco Bay.

Ask us about availability, pricing, and group size limitations for our guided tour program!

*Note: This program starts BEFORE the Aquarium opens to the Public.*

# TEACHER RESOURCES

Aquarium of the Bay Provides **NGSS-Aligned** Environmental Science Education Programs

## At home Lessons

Kindergarten-12th grade

For teachers looking for new lessons in the classroom, check out our teacher resource lessons for a fun and interactive way to engage your students.

## eLearning Module: Environmental Justice

9th-12th grade

An interactive online eLearning tool to help students learn about the connection between systemic inequality and environmental degradation in the Bayview area of San Francisco.

## eLearning Module: Bioacoustics

7th-9th grade

An interactive online eLearning tool to help students learn about marine animal communication and behavior in relation to the complex ecosystems found in San Francisco Bay.

## Virtual Tours

Kindergarten-12th grade

Join us for a virtual tour of Aquarium of the Bay! Teachers who wish to bring their students but lack transportation or travel time can now have the Aquarium virtually come to them! Listen as we take you through the entire Aquarium.
